Percentage of power requirement of the University met by the renewable energy sources
<p>Following the Government of India's resolution to ban all single-use plastics, the college administration declared the JMC campus plastic free. The ban is applicable to all entities. We organized the first Clothes Swap Shop Meet ever held at an educational institution in India to highlight and address the waste in the Fast Fashion industry. Collection drives for newspapers and posters have been held by NSS and Green Society. Recycling workshops held amongst students by the Green Society raise awareness about plastic waste, food waste and menstrual waste. The college has systematically reduced water wastage by building Indian style toilets. Various department and student level sensitization programmes have been organised.</p>

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. Title of the Practice 1. Free education to meritorious cum poor students. 2. Weightage given to tea garden laborer. 2. Objectives of the Practice As Amguri College is based in a semi-rural location, meritorious students often face troubles in pursuing higher education. This free admission is introduced by the college provides a protective cover from Welfare fund Welfare committee that helps them cope in their most vulnerable years. 3. The context Most of the students (male female) belong to families with low and poor income. Sometimes it becomes very difficult for them to meet the education. Though having a prospect of bright future, parents cannot send their children to get education due to poor economic condition. The college management has initiated this practice to boost the minds of both students and parents to be stewards of the planet. 4. The practice Keeping in mind the "Beti bachao, beti parhau" campaign of the Government, this step forwards imparting free education and to enroll tea garden students, where more than 60 students are girls, by the college seems to be very effective. Students are not only able to get the benefit of such policy, but also a sense of awareness is instilled in them. The policy has the same follow up of the instructions of the Govt. of Assam to access education in free. 5. Evidence of Success Most of the students of Amguri College, as it has been obtained from the profile, mostly come from marginal areas with low/poor economic background with minority students experiencing Financial hardships, this free admission for the students has achieved huge success among them as it is done for free of any cost on their parts. In the similar way, the chance given to tea garden students to get enrollment offered by the college also has proved to be successful as all the expenses regarding this are borne by the college itself. 6. Problems encountered and resources required So far, no such problem worth to be mentioned has been encountered by the authority. But authority has to meet this expenditure from and within their limited resources. 7. Notes Apart from the above mentioned two best practices, the college has already installed: 1. Integrated fire safety system, 2. College has arranged Renewable Source of Energy by installing Solar Power System 3. Language Lab has been installed in the college which is running smoothly. 4. Bio-metric attendance has been implemented for the sake of regularity and punctuality.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

"Dristi Amar Diganta", the very emblem of the college means eyeing on the zenith. Our vision is to establish an academic culture which would help student realize their innate potentials, thereby, boosting up their morale. Amguri

college continually assesses student learning and institutional performance and practices to embrace diversity, to encourage a healthy community environment and to improve upon the programs and services, it offers, all to promote student learning. It is a flexible and nimble organization, able to assess and respond effectively to the needs of our students and our community. The college offers Honours courses in almost all the subjects in the Departments of Arts, so that there is an enhancing access to higher education for the students and they can achieve their academic goals. In order to ensure almost hundred percent success, even after the preparatory test (before the final university exam), Re-test is held for assessing students' individual and internal effectiveness. As an institute of higher learning Amguri college will always promote positive values and motivate learners to get them involved in intellectual activism. We visualize to transform education through practical orientation and outcome-based teaching. Amguri college rehabilitates the past glories of our motherland through regular awareness programs, seminars, cultural activities and try to combine the best elements of education with man making and character building as our mission. The college commemorates the great thinkers, philosophers, freedom fighters and noble personalities on different occasions around the year and upholds our cultural heritage of devotion, wisdom, honesty and sincerity through regular exposure to the students. Teachers of the college participate in value related seminars, conference on behalf of the college. Teachers are considered for on-duty leave for attending/participation in other seminar/workshops which are beneficial for upgrading themselves. Teachers are allowed to make use of the library at any given time within the working hours. All the activities of the college are intertwined with values. Teachers in the class elaborate on the ideas and educate the students with their own experiences and anecdotes. Thus we have chalked out a comprehensive plan where students can have a joyous participation in the learning process. Our infrastructure facilities, a family of higher qualified and dedicated teaching fraternity, technological support in imparting education and special funding for the deprived and deserving ones, contribute enormously in making the whole process of teaching and learning truly meaningful. As an institute of higher learning Amguri college will always promote positive values and motivate learner to get them involved in intellectual activism. We strive to transform education through practical orientation and outcome-based teaching. It has been obtained from the profile that students joining various courses of the college, come from the rural areas with low-income background. As the college is situated in an under-developed area, a turnover of students belonging to SC/ST/ OBC and other backward communities is found in every academic session. This turnover results into an upsurge of first generation graduates every year from this college. The college is envisioned to serve people of this notified backward area, providing them with the quality education at an affordable cost. The name of the college and the words engraved in its emblem speak in volumes about its vision. Although the college, as affiliated, does not have the freedom of developing its own curriculum, but it develops the means needed for the effective delivery of curriculum, class tests, unit tests, re-tests, tutorials, power-point presentations, special classes for slow and advanced learners - enable the students to improve and perform better. The college also encourages students of weak financial background to pursue their work career destiny by providing scholarships and free-studentship through student-aid funds and also through private aids. As a result, although there are a huge number of students, getting enrolled in this college every year, a minimum standard of quality always has seen maintained so far.
